Summary Report

The goal of this project was to extend all ancestral lines of Guiomar de Conceição de Sousa as far as time and records would allow. Guiomar was born on 21 April 1921 in Sobredo, Murça, Guarda, Portugal, and was the daughter of Agostinho de Sousa and Laura de Jesus Rodrigues. The client was especially interested in obtaining a copy of Guiomar's birth certificate and learning more about her life.

We are pleased to report that we have successfully located the birth registration of Guiomar de Conceição de Sousa, which confirms she was the daughter of Agostinho de Sousa and Laura de Jesus Rodrigues. Portuguese records reveal Guiomar came from a long line of property owners from Sobredo, Murça, Guarda, Portugal. Researchers were also able to identify all Guiomar's paternal and maternal second-great-grandparents in Portuguese Catholic parish records. In a future research session, there is potential to continue extending Guiomar's maternal and paternal family lines.

Background

The client provided Guiomar's marriage record, which states she married Andrew Roy Hunter on 19 May 1962 in the Surrey Northern registration district, Surrey, England. Her father, Agostinho de Sousa, was recorded as a property owner who passed away before his daughter married. The client also provided other genealogical information that has been acknowledged in the analysis section of this report.

Summary¹

Portuguese genealogical research is heavily reliant on two resources: civil vital records created by the government and ecclesiastical records created by the Catholic Church. The Catholic Church acted as the local civil registrar until the formation of the First Portuguese Republic in 1910. A year after its formation, “all residents were required to have their vital events recorded in the civil registrar, regardless if this information was also recorded in their church’s parish.”²

Consistent with client-provided information, Guiomar’s birth registration was located in the Murça Civil Registrar. The Murça Civil Registrar stated Guiomar was the legitimate daughter of Agostinho de Sousa and Laura de Jesus, who were residents of Sobredo in the parish of Noura, Murça, Vila Real, Portugal. The records of the Nossa Senhora da Anunciação Catholic Parish in Noura indicated Agostinho was the son of Bendito José de Sousa and Joaquina de Macedo, and Laura was the daughter of Francisco João Rodrigues and Margarida de Jesus.

From there, Guiomar’s maternal and paternal family lines were extended as far as time and records would allow, utilising Catholic Church records. While the records of the Nossa Senhora da Anunciação Catholic Parish in Noura are available via remote access back to 1691, none of these records were indexed, greatly impacting the time needed to locate Guiomar’s family’s vital records. There was not enough time in this research session to continue extending the client’s family lines. However, in a future research session, these lines could possibly be extended back to the 1600s and 1700s.

Recommendations

¹ Please refer to the attached research analysis portion of this project for all sources searched and detailed analysis. This section represents an executive summary only.

² “Portugal Civil Registration,” *FamilySearch Wiki*, https://familysearch.org/en/wiki/Portugal_Civil_Registration, accessed April 2022.

Based on the results of this research session, we would recommend the following steps in a future research session:

1. Using the baptismal records of the Nossa Senhora da Anunciação Catholic Parish, search for the baptisms of Francisco de Sousa Gomes and Maria do Carmo, who were married in the same parish on 15 June 1836. Then, extend their family lines as far as time and records will allow. These records are available via the FamilySearch catalogue and Tombo.pt.
2. Conduct an area search for the baptism of João Alves Mourão, who married Caetana Alves in 1849 in Vila Verde, Alijó, Vila Real, Portugal.
3. Search for the baptismal record of Antonio José Rodrigues in the records of the Nossa Senhora da Anunciação Catholic Parish, Noura, Portugal. Antonio married Carlota de Jesus there on 8 July 1865. Then, research and extend these lines.
4. Locate the baptismal records of Ventura José Gomes and Leonor Maria, who were married on 14 July 1833 in Noura, Portugal, and were both from Sobredo.
5. Using the records of the Nossa Senhora da Anunciação Catholic Parish, research and extend the lines of Leonardo Fernandes and Maria Bernarda, who were married in that same parish on 21 May 1814.

Thank you for entrusting us with your family history. We hope you are pleased with the results and look forward to working with you in the future!

Research Analysis

GOALS

- Extend all ancestral lines of Guiomar de Conceicao de Sousa as far as time and records allow. Guiomar was born on 21 April 1921 in Sobredo, Murça, Guarda, Portugal, and was the child of Agostinho de Sousa and Laura de Jesus Rodrigues. The client will be visiting Portugal this summer and would like to know more about her life. The client would also like us to obtain a copy of Guiomar’s birth certificate from Portugal. (They will be applying for dual citizenship for their children.)

	<p>The client provided the following information: “Guiomar was estranged from her Portuguese family after the age of about 50. In the UK she met and married my father-in-law in 1962 and lived here until her death. She was not close to my husband or her daughter when they became adults. She implied that she came from wealth and that her family were originally from Madeira. She spoke at least 7 languages.”</p> <p>The client also provided Guiomar da Conceição’s marriage entry, which states she married Andrew Roy Hunter when she was 41 years old in the Surrey Northern registration district, Surrey, England (19 May 1962). Her father, Agostinho de Sousa, deceased, was a property owner.</p>
